Participant Information Sheet

**Protocol Title:** Usage of Cone Beam Computed Tomography by Dentists in Singapore

**PI:** Dr Lim Li Zhen

Thank you for your time in participating in this research study, entitled “Usage of Cone Beam Computed Tomography (CBCT) by Dentists in Singapore”

This study is open to all dentists who are currently practicing in Singapore. We are inviting both CBCT and non-CBCT users to participate in this survey. Your participation in this study will help contribute to a better understanding on the patterns of CBCT usage (or non-usage) among dentists in Singapore.

The purpose of this study is to evaluate the usage of CBCTs among dentists in Singapore and to find out what your training needs are. A secondary aim is to find out if there is a perceived need for an Oral and Maxillofacial Radiology reporting service in Singapore.

Please be assured that all information collected will remain confidential. Your name and email address will not be collected during the data collection phase. Participation is voluntary and you may opt-out at any time before submitting the survey.

If you agree to participate:
- You will be asked to complete an online survey
- The survey will take approximately 15 minutes or less of your time.
- Submission of the survey constitutes consent for participation.

There will be no compensation for participation in this study. There are no anticipated risks in taking part in this study.

The study has been reviewed by the NUS Institutional Review Board for ethics approval.

For an independent opinion regarding the research and the rights of research participants, you may contact a staff member of the National University of Singapore Institutional Review Board (Attn: Mr Chan Tuck Wai, at telephone 65-6516 1234 or email at irb@nus.edu.sg).

If you have any questions about this study or your participation, you can contact the Principal Investigator Dr Lim Li Zhen at denllz@nus.edu.sg.

Thank you for your participation!

Dr Lim Li Zhen
Principal Investigator
