MESSAGE from the Dean

This past Academic Year 2007/08 saw the establishment of the National University Health System (NUHS) in January 2008 - a joint venture between NUS and Ministry of Health Holdings (MOHH). NUHS brings together the Faculty of Dentistry and Yong Loo Lin School of Medicine of NUS with the National University Hospital (NUH), under a common governance. NUHS will have the tri-mission of Excellence in Clinical Care, Translational Research and Education of an Academic Health Centre.

This is a significant milestone in the faculty's history, as the Academic Health Centre tri-mission of NUHS will allow the parties to better create synergies that will transform the education and training of clinicians, while at the same time translating laboratory research into meaningful clinical applications so as to deliver the best clinical care to Singaporeans. NUHS will be the nexus for the training of a cadre of healthcare providers and biomedical scientists whilst conducting research that focuses on bringing solutions to the major healthcare challenges of the region. Being part of NUHS ensures more than ever that Dentistry and Oral Health is interconnected and integrated with Healthcare in Singapore.

The infrastructure on Kent Ridge campus will be redeveloped for the Academic Health Centre tri-mission to include extensive education and research facilities to be housed in new buildings and facilities over the next 2 decades. One of the first pieces was the relocation of most of the teaching facilities and teaching clinics of the Faculty to the Interim Building to be sited at the basic medical sciences Carpark 9. Partial relocation of the faculty allows the location of the National University

Heart Centre, Singapore (NUHCS) in Levels 1 and 3 of the former Dental Block in the NUH Main Building for better public access when the Kent Ridge MRT station opens in 2010 as well as the consolidation and modest expansion of Dental Services for the University Dental Cluster. Exploring the options for relocation began as early as January 2008 and the design and planning of the 6195m² Interim Building began in the last half of 2008. We will share the exciting development of this new teaching and clinical training infrastructure in the near future.

The BDS intake has grown to 42 in Academic Year 2006/07 and 2007/08 and we look forward to further increments in class size to 44 next year and to 48 by Academic Year 2009/10 when the Interim Building opens in January 2010. In the longer term, dental manpower needs will continue to grow to meet the growing population as well as increasing demand and the increasing complexity of treatment needs of the aging population. A significant further increase in BDS intake would require further expansion of training and teaching facilities.

“As we move forward in our tri-mission through these challenging times, more than ever, we need the support of all staff, students, alumni and friends of the faculty.”

Establishment of global links continues with a MOU with the School of Stomatology, Shanghai Jiao-Tong University in December 2007. The large clinical volume at the Shanghai Ninth People’s Hospital will allow the faculty to leverage on the great potential of this wealth of clinical material in the identified areas of Orthodontics / Craniofacial Imaging Research and Oral Maxillofacial Surgery. This relationship is further cemented with a program of hosting visiting surgeons in OMS for 6 month stints on a rotating basis.

Over this past year, infrastructure within the faculty saw incremental improvements to more optimally use the limited space available, with renovations to the Dean’s Office complex, expansion of Dental Centre by another 2 operatories, upgrading of Laboratory 2 and Graduate Laboratory 3 as well as an additional 92m² of research space at Level 3 of the DSO building.

The faculty received a major gift of \$250,000 from the World Dental Education Society (WDES) to set up the WDES-FDI World Dental Federation Travel Grant to support 10 undergraduate students annually on student exchange programme trips to overseas dental schools.

With government matching, the total endowed sum will be \$500,000 and this generous act of philanthropy will allow enrichment of our students through the global exposure they will garner.

The support we receive from our alumni for the Alumni Mentorship Scheme continues to be strong and we are grateful to all alumni who have come forward to volunteer as we refresh and rotate the mentor-mentee assignments. The exposure and connection with practicing alumni that students garner through this program will stand them in good stead when they enter the ranks of the profession.

As we move forward in our tri-mission through these challenging times, more than ever, we need the support of all staff, students, alumni and friends of the faculty.

Associate Professor Keson Tan
Dean

VISION To be a dental institution of international distinction

MISSION

Improve oral health through academic excellence, high impact research and quality clinical service.

Our mission will support the three thrusts of NUS: Quality Education, High Impact Research and Entrepreneurship, In Service of Country and Society.

By providing a vibrant and challenging environment, the Faculty strives to produce clinically competent, socially and ethically responsible professionals who will be leaders in the community.

Excellence in our educational programmes and high impact innovative research will be the foundation upon which we will advance knowledge and nurture students to realize their full potential along with a passion and commitment to independent lifelong learning.

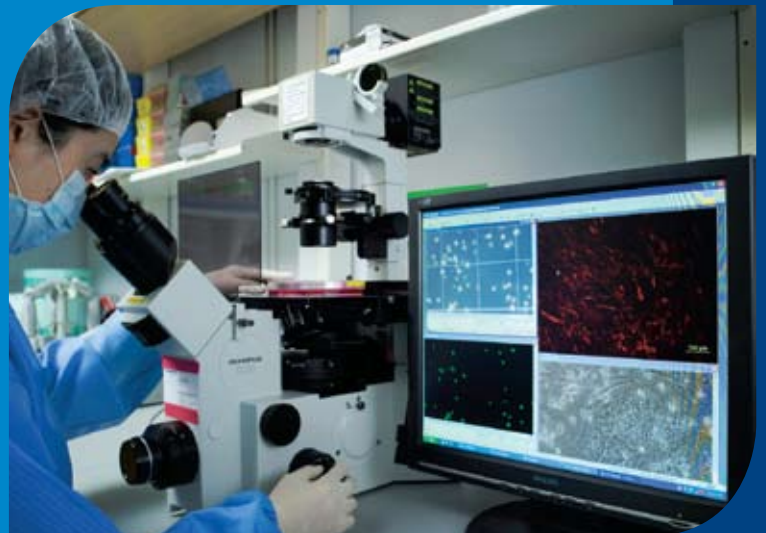

FACULTY OBJECTIVES

In line with the University's objectives, the Faculty aims to be the leading dental school in the Asia Pacific region within the next 10 years and a top ranking dental school internationally within 20 years.

The Faculty will be guided by eight objectives to achieve our Vision to be a dental institution of international distinction:

- To be the educational hub for dentistry in the region, a confluence where the very best dental students, staff and faculty interact and learn from one another.
- To establish a vibrant and conducive environment for high impact research, excellent teaching, and professional clinical service.
- To produce clinically competent graduates with a sense of professionalism, ethical and social responsibility.
- To develop peaks of excellence of high impact research.
- To be the regional centre for postgraduate clinical specialty training programmes that are recognized for their excellence and graduates who are leaders in their clinical specialties.
- To strengthen bonds with students, alumni and other stakeholders; building bridges that transcend the academic experience.
- To provide leadership in the development of the profession.
- To contribute towards life-long learning for the dental profession.

HIGHLIGHTS OF THE YEAR

“The faculty continues to work towards its vision & mission through further development of its strategic plans.”

HIGHLIGHTS OF THE YEAR

The National University Health System

Established in January 2008 and jointly owned by the Ministry of Health Holdings and National University of Singapore, the National University Health System groups the National University Hospital, NUS Yong Loo Lin School of Medicine and NUS Faculty of Dentistry under a common governance structure to create synergies to advance health by integrating excellent clinical care, research and education.

The enhanced capabilities and capacity will enable the NUHS to deliver better patient care, train future generations of doctors more effectively and bring innovative treatments to patients through groundbreaking research.

Faculty's Strategic Plans

An Update

Faculty had identified its main strategic priorities:

Research

With the establishment of the 3 research centres, namely: Centre for Craniofacial and Regenerative Biology (CCRB), Dental Biophotonics and Biomaterials Programme (DBBP) and Craniofacial Clinical Research Unit (CCRU), new research space with an area of 450 m² has been allocated for use at the DSO Building. This new space, together with the existing 295 m² research centre would enable the Faculty to foster the next phase of research development and facilitate achievement of Faculty's vision and mission.

Graduate Residency Training Programmes

This year's intake moves the Faculty closer towards its objective of being the regional centre for clinical specialty training. The Faculty accepted a total of 16 new residents for the Master of Dental Surgery Programmes, including 2 residents for Endodontics, 3 for Oral and Maxillofacial Surgery, 6 for Orthodontics, 3 for Periodontics and 2 for Prosthodontics.

Centre for Advanced Dental Education (CADE)

CADE continues to raise the profile of dental education with its second intake of 6 students for the 2 year part-time course leading to a Graduate Diploma in Dental Implantology (GDDI).

EDUCATION

“Singapore’s transition into a knowledge-based economy requires strong global orientation & places new demands on the university & its graduates”

2nd Intake of Graduate Diploma in Dental Implantology (GDDI) Students

The Centre for Advanced Dental Education (CADE) commenced its Graduate Diploma in Dental Implantology (GDDI) programme in January 2007. In July 2007, the CADE registered another 6 dentists to join its second cohort. They are, from left to right, Dr Alphonsus Tay, Dr Ng Seow Choon, Dr Chong Kai Chuan, Dr Lim Gwek Toh, Dr Jonathan Paul Seah and Dr David Wong.

3rd Faculty of Dentistry Symposium

The 3rd Faculty of Dentistry Symposium was held from 12 to 13 January 2008 at the Orchard Hotel. The title of the symposium was “Endodontics and Management of Dental Emergencies”. Over 350 local and overseas dentists attended the lectures delivered by international as well as our local speakers.

From left to right: A/P Keson Tan, Dr Arnaldo Castellucci, Dr Stanley F. Malamed, A/P Jennifer Neo and Prof Chew Chong Lin

EDUCATION

WDES-FDI World Dental Federation Award

Prof Tan receiving the cheque from Dr Choo

The World Dental Education Society (WDES) donated S\$250,000 to the Faculty of Dentistry during the opening ceremony of the International Dental Exhibition and Meeting (IDEM) held in April 2008. The donation, which is eligible for the dollar-for-dollar grant by the Singapore Government, will support undergraduate dental students to go on the overseas enrichment programmes.

Dr Choo Teck Chuan, alumni of the class of 1955 and president of the WDES since its inception in 1990, hopes that this endowed gift will benefit at least ten worthy students each year in their overseas attachments.

Besides WDES, well wishers of the Lee Foundation, Shaw Foundation and members of the dental industry also contributed towards this gift to NUS.

12th Clinical Dentistry Symposium

Our 12th Clinical Dental Symposium was held on Sunday 25 May 2008. Lecture Theatre 28 located at the Faculty of Science was packed with 257 participants who signed up for this annual Symposium. We also had 17 exhibitors supporting the event.

EDUCATION

This year, we were privileged to have 5 great speakers to impart their knowledge to our participants.

Lectures	Speakers
<ul style="list-style-type: none"> Smoking and Periodontal Disease 	Prof Richard Palmer
<ul style="list-style-type: none"> All-ceramic Dental Solutions for Teeth and Implants 	Prof Michael Razzoog
<ul style="list-style-type: none"> Internal Derangement of the TMJ Unresponsive to Conservative Treatment: What to do Next? 	Prof Tateyuki Iizuka
<ul style="list-style-type: none"> Interceptive Orthodontics 	A/P Kelvin Foong
<ul style="list-style-type: none"> Clinical Management of Caries: An Update 	A/P Hien Ngo

Student Exchange Programme

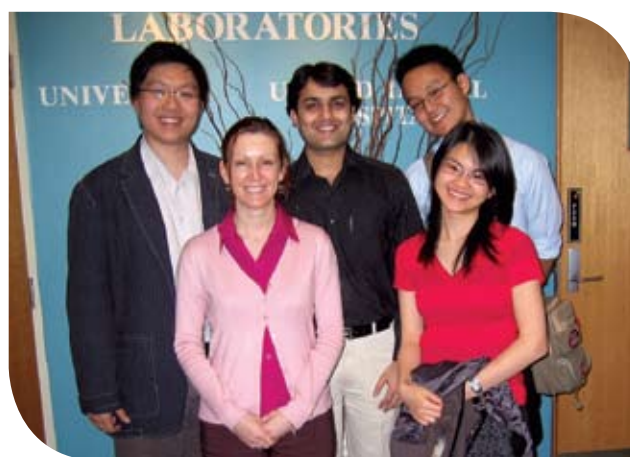

In September 2007, 13 of our Third and Fourth Year students went on a 2-week attachment to the following overseas dental institutions:

Overseas Dental School	Number of Students
Shanghai Jiatong University, PRC	4
University of Adelaide, Australia	3
University of British Columbia, Canada	4
University of Sydney, Australia	2
Total	13

A total of 7 students benefited from sponsorship from dental companies (KaVo Dental, Shofu Inc, Dentsply Asia), the Royal Australasian College of Dental Surgeons, and the Office of Alumni Relations.

The faculty also played host to 48 international dental students who visited our dental school within the Academic Year 2007/2008. They were from Australia, Hong Kong, United Kingdom, Germany, Korea and Pakistan.

EDUCATION

Membership in Orthodontics Hits Highest No. of Students

The Royal College of Surgeons held its Membership in Orthodontics examination at the Faculty of Dentistry in July 2007. This year, there were a total of 15 students, of which 3 were our own residents taking the Master of Dental Surgery. The Royal College assigned two of their examiners Dr Lindsay Winchester and Dr Matthew Moore to assist and guide a team of 6 Faculty of Dentistry appointed examiners in conducting the examination.

Renovation of Classrooms

In Academic Year 2007/8, renovations were done to 2 seminar/tutorial rooms (SM1B and TR2E). New flooring and furniture were installed for both rooms. Minor work was also done to other classrooms. The renovation works served to provide more seats to accommodate the increase in student intake, and also to upgrade the room facilities for a more conducive learning environment.

RESEARCH

“NUS must be more NIMBLE in creating an environment that attracts the best people and allows them to realise their full potential.”

RESEARCH

New Facilities: Histo Lab, DSO

The Dental Histopathology laboratory in Dental Clinic 1 has been converted into an Oral Tissue Repository (OTR). This OTR is established under one of the Faculty's Strategic Research Initiatives, the Center for Craniofacial & Regenerative Biology. OTR will provide a common-sharing facility to expedite the collection and banking of viable soft/hard oral tissues for various specific research investigations. Meanwhile, the Dental Histopathology laboratory has been shifted to DSO (Kent Ridge) for streamlining of histology research works.

MOU With Shanghai Jiaotong University

Academic relations with Shanghai Jiaotong University developed over the years and in December 2007, the Dean led a team of senior academic staff to Shanghai Jiaotong to visit the University and to sign a Memorandum of Understanding (MOU) to formalise collaborations in research and education including clinical collaborations in oral and maxillofacial surgery.

CLINICAL SERVICE

“A University-wide Strategy Review has charted the path forward with milestones and strategic objectives to steer the University towards meeting the challenges of an increasingly competitive global landscape and achieving our collective vision of being one of the LEADING public universities in the world.”

HMDP Visiting Experts 2008

Dr Rino Burkhardt was invited under the auspices of the HMDP Visiting Expert program by the Department of Preventive Dentistry, NUH for the period of 2 January 2008 to 10 January 2008. He teaches at the University of Berne in the Department of Periodontology and enjoys an international reputation of an astute clinician. One of the highlights of the visit included an exemplary live surgical demonstration of microsurgical procedures.

In line with the Ministry of Health's call for dentists to be trained in Geriatric and Special Needs Dentistry, Prof Ronald Ettinger and A/P Jane Margaret Chalmers were invited under the auspices of the HMDP Visiting Expert program by the Department of Restorative Dentistry, NUH for the period of 20 March 2008 to 25 March 2008.

Prof Ronald Ettinger is the Director of Geriatric Dental Programs at the University of Iowa and is also Professor in the Department of Prosthodontics and the Dows Institute for Dental Research.

A/P Chalmers is the co-director of the Interdisciplinary Geriatric Fellowship and the Junior Geriatric Dentistry Course. She also teaches and provides clinical patient care in the Geriatric and Special Needs Program.

One of the highlights of the visit included a well-received public lecture on "The Aging Dentition", where both speakers discussed public health perspectives and clinical rehabilitation for the elderly.

CLINICAL SERVICE

NUH Dental Health Month

The Dental Health Month aims to create awareness of dental health amongst the public and staff in NUH/NUS. A series of 8 lunchtime talks were held in the Health Education Hub every Tuesday and Thursday in the month of April 2008.

The participants were also able to gain dental information such as causes of caries and periodontal disease from the poster gallery in the Health Education Hub.

Topic	Speaker
Snoring: What You Can Do About It	Dr Chng Chai Kiat
Straight Talk: What Braces Can Do	Dr Geraldine Oh
Keeping Your Teeth For Life	A/P Hien Chi Ngo
Bisphosphonates: What It Can Do To Your Jaws	A/P Yeo Jin Fei
Creating That Perfect Smile	Dr Loke Wei Qiang
What You Need to Know About Oral Cancer (in Chinese)	Dr Ji Tong
The Fundamentals of Healthy And Beautiful Teeth	Dr Joel Khoo
My Gums Are Shrinking, Am I Getting Old?	Dr Fu Jia Hui

Dental Oral Cancer Clinic- integrated oral health care for cancer patients

In September 2007, the Dental Oral Cancer Clinic was started in the Department of Oral and Maxillofacial Surgery, Faculty of Dentistry by Dr Victor Fan (Consultant, Maxillofacial Surgeon) and Dr Wong Lea Choung (Consultant, Radiation Oncologist). The main purpose of the clinic is to manage head and neck cancer patients with an integrated oral dental care program. Oral oncology patients will be able to consult the surgeon and oncologist in the same clinic for treatment planning and follow-up care. The pioneers of the clinic felt that coordination of interdisciplinary care may often be lacking and is best achieved when the patient can be seen in an integrated setting such as this.

Since its inception, the clinic has seen close to a hundred patients. It also oversees management of medically compromised patients such as those going for organ transplants. A research program on the quality of life issues for the oral cancer patient is also being planned in the clinic.

Dr Fan (left) and Dr Wong examining a patient

CLINICAL SERVICE

Mouth Cancer Awareness Campaign

The Mouth Cancer Awareness Week was co-organised by the Department of Oral and Maxillofacial Surgery with the Association of Oral & Maxillofacial Surgeons (Singapore), from the 19 to 24 November 2007. Its aims were to raise awareness of the devastating consequences of late detection of oral cancer and to educate the public on how early diagnosis holds the key to improved care and treatment outcomes. The activities which were specially lined up for the event included public lectures at the NUH Health Education Hub, a public forum, an open house and free mouth cancer/oral health screening run by the department and many of the private dental clinics available throughout the island.

Date	Activities
3 November 2007	Lecture by Dr Victor Fan on Oral Cancer Diagnosis and Management
19 November 2007 21 November 2007	Lecture [at NUH Health Education Hub] by Dr Victor Fan and Dr Xu Liqun
23 November 2007	Lecture on Mouth Cancer (in Chinese) to the elderly citizens at Ang Mo Kio Community Centre
24 November 2007	Public Forum on oral cancer by multidisciplinary specialist team
22-23 November 2007	Free Mouth Cancer/Oral Health Screening Clinics in NUH, Dentistry Clinic 1, and 17 clinics throughout the island of Singapore
19-21 November 2007	News and media coverage: 938 Live Radio Talkshow, Good Morning Singapore TV interview, Newspaper articles and LianHe Wanbao

GLOBAL PROFILE

“Arising from the strategic plans charted for the medium and long term, the Faculty will embark on STRATEGIC initiatives for expansion in advanced dental education and focused high impact research activities.”

Leadership Positions in International & Regional Organisations

Name	Designation(s)	Organisation(s)
