In recent years, Minimal Intervention Dentistry (MID) has gained a great deal of interest in the field of paediatric dentistry. In this workshop organised by the DentAlliance, you will learn techniques on how to facilitate a child's preventive visit to the dentist at one year old. Moreover, an introduction to oral care techniques such as the application of Silver Diamine Fluoride (SDF) and the placement of stainless steel crowns to manage caries in young children without the use of local anaesthesia will be elaborated. When local anaesthesia is required, our trainers will demonstrate the use of computer-assisted delivery such as the STA Wand machine and share tips on behaviour management strategies to minimise pain for anxious children and adult patients.

Through this hands-on workshop, participants will learn about:

- Managing Infant Oral Health: Preparing for the Dental Visit at 1 Year Old
- Silver Diamine Fluoride: Indications and Procedures
- Hall Technique Crown: Indications and Procedures
- Painless Local Anaesthesia Techniques (Computer-assisted Local Anaesthesia Delivery)

Participants are required to bring **two** adult or kid's extracted teeth (cariou).

## The Trainers

**Dr Lim Wanyi**

Deputy Director, Student  
Dental Centre, Health  
Promotion Board

**Dr Hu Shijia**

Assistant Professor (NUS  
Faculty of Dentistry) &

## The Trainers

### Dr Lim Wanyi

Deputy Director, Student Dental Centre,  
Health Promotion Board

Dr Lim is an accredited specialist paediatric dentist and practises primarily at the Student Dental Centre, Health Promotion Board. She also spends her time at the National Dental Centre, Singapore, as a Visiting Specialist and teaches paediatric dentistry residents of NUS Faculty of Dentistry as a part-time clinical lecturer. Dr Lim graduated from NUS Faculty of Dentistry and worked for 2.5 years before pursuing her Masters in Paediatric Dentistry at the University of Melbourne. Dr Lim enjoys empowering parents to take care of their child's teeth and feels that dentists too, can do much more for our little ones.

### Dr Hu Shijia

Assistant Professor (NUS Faculty of Dentistry) &  
Consultant, National University Centre for Oral  
Health, Singapore (NUCOHS)

Dr Hu is currently a consultant in the Department of Paediatric Dentistry at the National University Centre for Oral Health, Singapore. Additionally, he trains dental students and paediatric dentistry residents as the undergraduate module coordinator for paediatric dentistry at the NUS Faculty of Dentistry. A graduate of the Faculty, Dr Hu completed his residency in paediatric dentistry at the University of North Carolina, where he was also awarded a PhD in oral biology. Professionally, he is a board-certified paediatric dentist with both the American Board of Pediatric Dentistry as well as the Specialist Accreditation Board (Singapore). Dr Hu is also currently the President of the Society of Paediatric Dentistry Singapore.

## The Trainers

### Dr Tong Huei Jinn

Adjunct Senior Lecturer (NUS Faculty of Dentistry) &  
Private Practice (Petite Smiles Children's Dental Clinic)

Dr Tong graduated with a Bachelor of Dental Surgery from the National University of Singapore (NUS) and completed her postgraduate training in Paediatric Dentistry with distinction at the University of Leeds (UK). After returning to Singapore, she worked at her alma mater as an Assistant Professor and Consultant in Paediatric Dentistry where she taught both undergraduate and postgraduate students. She obtained Membership in Paediatric Dentistry of the Royal College of Surgeons (England), and is an accredited specialist in Singapore. Her interests lie in the management of children with severe traumatic dental injuries and dental anomalies as well as those with medical conditions and special developmental needs. Dr Tong currently works in private practice, and holds an Adjunct Senior Lecturer position at NUS where she mainly teaches postgraduate students.

### Dr Yee Ruixiang

Consultant, KKH Dental Service & KKH Cleft and Craniofacial  
Centre

Dr Yee is a consultant at both the KKH Dental Service and the Cleft and Craniofacial Centre. He manages the oral health of babies and children especially those with medical conditions, such as left lip/palate, child abuse and oral trauma. He is also a part-time clinical teacher of the NUS Paediatric Dentistry postgraduate programme and has special interest in sedation, pain management, special needs and non-accidental injuries. Dr Yee volunteers as the Vice-President of Society for Paediatric Dentistry Singapore. A graduate of NUS, Dr Yee subsequently passed both his MSc (Paediatric Dentistry) and Graduate Cert (Advanced Clinical Practice) with Distinctions at King's College London. He also passed the UK MPaedDent diploma examinations, achieving membership to the Royal College of Surgeons (RCS England). Locally, he is a board-certified paediatric dentist with the Specialist Accreditation Board Singapore and is a Fellow to the Academy of Medicine Singapore (FAMS).
